WORK EXPERIENCE

Software Engineer   **August 2020 – Present**

IKEA   *Conshohocken, PA*

- Part of the customer-facing Fulfillment team where we work to implement solutions that will improve the customer experience with regards to delivery times, the return process, Click & Collect, shipping methods, etc.
- Built our re-branded e-mails for Click & Collect using XSLT to style the templates & populated the dynamic content within the e-mails using XML payloads generated by one of our backend systems known as ISOM
- Helped build a Java RPA bot that serves as an intermediary for the outbound & inbound data between the IKEA fulfillment platform & API's from two companies called Optoro & Returnly

IT Technician   **July 2015 – August 2020**

IKEA   *Covina, CA*

- Maintained all the hardware in two of our stores (Burbank & Covina), including but not limited to: Dell workstations & notebooks, HP & Lexmark printers, HP plotters, NEC phones, iMacs, DLoG forklift terminals, & all the equipment in our server rooms
- Presided over our ticketing system (known as iDesk) to ensure that all co-worker incidents were responded to in a timely & efficient manner
- Oversaw all IT projects that occurred at the stores & was the main point of contact for all our technical vendors including Dell, HP, Acteon, Lexmark, Advantech, Wincor, & more

EDUCATION

Bachelor of Science in Computer Science   **January 30, 2015**

St. John's University   *Queens, NY*

PROJECTS

Personal Portfolio — ivanortiz.me
My portfolio website that reveals a little bit about me, my coding projects, & my contact information.
